Re: Riverport Terminal and Fleetng Company
Sauget, Illinois

Dear Mr. Neumaier:

Enclosed for your file is a letter documenting Riverport's attorney's agreement to allow access to its Sauget, Illinois, site based upon your proof of insurance.

Thank you again for your cooperation in helping me gain this agreed access.

Sincerely,

Thomas W. Daggett
Assistant Regional Counsel

Dear Tom:

We have received the Certificate of Insurance from your contractor that is proposing to do work on our client's site in Cahokia. Based on the insurance certificate, you may commence your contract work on the site per the schedule previously sent to us. However, it is still our very firm position notwithstanding the insurance coverage that neither my client nor Pillsbury is under any duty to disclose hazards which are not readily apparent to the naked eye.

As you know, our client purchased the ground from a landfill operator some years ago and is not aware of any subsurface hazards, if any. Therefore, it is with this firm understanding on our part that we are allowing the work of your contractor to commence.

Very truly yours,

Frank L. Pellegrini
